# STAIRLIFTS

From the first call, to the completion of installation. We pride ourselves just as much on our approach and service, as we do the product we install.

We aim to have most installations completed within 7-10 days from initial survey. With our free survey and quotation policy, give us a call to see how we could help you today.

We understand the difficulty of how various circumstances can impact your mobility. At D.K Lift Services Ltd, we have outstanding & cost effective solutions for varied budgets, to help you regain independence in your own home.

Our Stairlifts are market leading products, giving you the utmost confidence in your purchase. We understand the personal decisions that go hand in hand with the practical decisions. From the aesthetics to the practicality, our wide range of stairlifts are sure to meet your standards.

Our range of UK market leading Stairlifts:

- Designed to blend in seamlessly, with your existing interior.
- Slimmest stairlifts on the market, taking up a lot less space than traditional stairlifts.
- Wide range of features from power adapted seats and footrests, to sliding rails, we can overcome any situation.
- Huge thought and infrastructure has been placed in our product with extensive market research to ensure we tick all the boxes you would expect us to.
- From easy of usability, to safety, we have a market leading product for a reason.

# STAIRLIFTS HANDICARE 1100

The Handicare 1100's strong yet super slim line rail is the narrowest on the market so it obscures less of your stairs than any other straight stairlift system. With its compact design and grease free rail, the 1100 blends in nicely with your interior and is a breeze to keep clean.

The rail features a rounded design to reduce the risk of injury from the rail edges and can be cleaned more easily.

The Handicare 1100 is ultra slim and compact and can be placed close to the wall, leaving a lot of free space on the staircase for other stair users to safely climb the stairs. It's the slimmest straight stairlift rail on the market!

To save even more space, the stairlift seat, footrest and armrests can be folded when not in use. The seat will swivel at the top landing, making sure you can get on and off the stairlift easily and safely.

Also, the 1100 comes as standard with safety sensors that will stop the lift in case of obstruction. Due to the patented technology, there is no tooth rack on the Handicare 1100.

This means that unlike other stairlifts, there is no grease or oil on the rail collecting dust and dirt, making the rail easy to clean and safe to touch. Your staircase will stay spick and span!

The robust 1100 is powered by Handicare's patented four wheel drive technology with four quiet and reliable motors. In the unfortunate and rare event one of the motors breaks down, you can still finish your ride up or down the stairs.

The lift is fully certified by the international stairlift safety standard EN 81-40 and designed for years and years of carefree daily use. Thanks to the continuous charge functionality you can park the seat anywhere you like on the rail: the batteries are always charged and ready to go.

Features include:

- Maximum weight limit: up to 140kg
- Costs under 20p/week to run on electricity
- Handicare 1100 optional extras available:
  - Powered Swivel Seat
  - Powered Footplate
  - 7 Metre Track
  - Retractable slide track technology to prevent an obstructions. (doorways, walkways)

# STAIRLIFTS HANDICARE FREECURVE

The Handicare Freecurve stairlift has been developed with the highest of standards in mind. The Freecurve is tailor made for your staircase and can be customised to suit your individual needs.

The unique, single rail design is not only slim and unobtrusive on your stairs, it also enables you to choose from a selection of colours to match your home and décor.

The Handicare Freecurve seat also comes in a wide variety of styles and choices as well. You can choose from our Classic, Elegance or Alliance seats to further customise your lift both in terms of how it looks and also the option features that you can add.

The Freecurve also has powered and automatic options to suit your exact needs. The almost limitless customizable options for the Freecurve make it the perfect stairlift for any home.

Features include:

- Various automatic and powered options available
- Manual swivel seat and safety sensors as standard
- Manual fold-up seat, arms and footrest
- DC power as standard
- Standard weight limit of 135kg
- Slim and stylish single rail design (less than 3 ¼" in diameter)
- Choice of three comfortable seat types
- Two remote controls as standard
- Choice of upholstery & rail colours
- Seatbelt as standard

# STAIRLIFTS THE ELEGANCE SEAT

The Elegance offers a lightly padded, faux leather seat that delivers both comfort and style with the benefit of being durable and easy to clean.

This seat can be supplied on our single rail curved system with a choice of two seat positions. The standard position with your back to the wall or our downward facing seat positioned at 45° to the wall.

This seat comes with a specially designed footrest which means that this seat configuration can be used to provide a solution for particularly narrow curved staircases.

The Elegance seat can be combined with a hinge or drop nose track making it suitable for use in hallways where a door is close to the bottom of the stairs.

The new Elegance seat offers our highest level of cushioning, combining elegant design with refined comfort and a luxurious feel thanks to its super soft upholstery, it is available in three colours each with a cream retractable seatbelt.

The upholstery's protective layer means that the stairlift seat is both durable and easy to clean. The armrests can be adjusted outwards to create a wider seat.

Compatible with our single tube curved stairlift system, the Elegance seat's armrests can be adjusted outwards to create a wider, more spacious seat. It can also be upgraded to add Handicare's patented Active Seat which provide additional support when sitting or standing. Maximum capacity with Elegance Seat with Hinged rail 125kg.

Available options include:

- **Powered swivel seat:** To automatically swivel your seat round so that you exit onto the landing safely.
- **Turn & Go:** Developed for very narrow curved staircase.
- **Active Seat:** This unique and patented development provides assistance for those users who would like some additional support when getting on or off the stairlift.
- **Unique Illuminated footplate:** When this powered footplate is unfolded, it is automatically illuminated.
- **Powered footplate:** To maximise free space, you can automatically fold up the footplate.

# STAIRLIFTS THE ALLIANCE SEAT

The Alliance's 'retro' styling delivery brings a classic yet contemporary feel to your stairlift. Its combination of real wood a choice of three leather look cushioned upholstery options can be chosen to complement your décor and rail colour which is also available in a choice of three standard colours.

Compatible with our single rail curved system, the Alliance can be combined with our Drop nose or market leading curved hinged rail making it suited for use in homes with restricted hallway space. The seat, arms and footrest all fold up neatly to leave as much space free for other stair users if required.

Maximum capacity with Alliance Seat with hinged rail 125kg.

Available options include:

- Powered swivel seat: To automatically swivel your seat round so that you exit onto the landing safely.
- Turn & Go: Developed for very narrow curved staircase.
- Active Seat: This unique and patented development provides assistance for those users who would like some additional support when getting on or off the stairlift.
- Unique Illuminated footplate: When this powered footplate is unfolded, it is automatically illuminated.
- Powered footplate: To maximise free space, you can automatically fold up the footplate.

# STAIRLIFTS THE CLASSIC SEAT

The Classic seat is a durable solution offered in a choice of three colours leather look wipe clean seat each offering a retractable seat belt as standard.

This seat can be supplied on our single rail curved system with a choice of two seat positions. The standard position with your back to the wall or our downward facing seat positioned at 45° to the wall. This seat comes with a specially designed footrest which means that this seat configuration can be used to provide a solution for particularly narrow curved staircases.

The Classic seat can be combined with a hinge or drop nose track. The single tube system is available in a choice of three colours as standard: cream, grey and brown.

Maximum capacity with Classic Seat with Hinged rail 125kg.

Available options include:

- Powered swivel seat: To automatically swivel your seat round so that you exit onto the landing safely.
- Turn & Go: Developed for very narrow curved staircase.
- Unique Illuminated footplate: When this powered footplate is unfolded, it is automatically illuminated.
- Powered footplate: To maximise free space, you can automatically fold up the footplate.
